THE CASINO—Prince Methusalem will be presented by the Casino company Wednesday night. Lor ten nights past I an Dianolo has been given to delighted and full houses. Boccaccia a very jupular and prelly opera, was put on last mouth just a our heavy snow storm came. While it drew good houses, all did not get to see it that desired, ladies especially not caring to renture out during the prevalence of the storm. In response to popular request the management, always after to the demands of its patrons, detried to reproduce Boccacca for two nights. That the decision was a wise one there is no room to question, for the company last night were greeted with one of the largest houses of the season, the unmber of ladies present being very large contrasted with the number attending during the cold spell. The company were in good with and sprints, giving a satisfactory residition.
